

# The City of Miami Beach community development week 2000

# CDBG CDBG

The Community Development Block Grant (CDBG) Program was established by the United States Department of Housing and Urban Development (HUD) in 1974 to develop viable urban communities by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for persons of low and moderate income.

The City of Miami Beach expends 100% of its federal CDBG activity and housing funds to benefit low to moderate-income residents of Miami Beach. In the words of the United States Department of Housing and Urban Development, the City of Miami Beach "far exceeds Department standards."

Please join us in celebrating our achievements with the organizations that have helped the City to provide outstanding services to Miami Beach residents, and that have made our community a model across the nation.
